

EUSAR 2022

Invitation to exhibit at EUSAR 2022

At the EUSAR 2022 Conference to be held in Leipzig from 20 – 22. April 2022, exhibition space will be provided for SAR related products and services.

The exhibition at EUSAR will provide a venue for business and non-profit organizations to contact the international SAR community (over than 500 participants).

Why exhibit?

The EUSAR Conference and Exhibition attracts influential decision makers who attend the technical sessions to present their work and learn about the latest technological developments.

While they come to network with colleagues and peers, they will automatically visit the exhibition of SAR products and services, and many will make important purchase decisions.

As an exhibitor, you will have the unique opportunity to get in on the ground floor and market your products and services to a captive audience of buyers, designers and influencing researchers, who are following all aspects of SAR instrumentation high resolution imaging radar techniques, both airborne and space borne.

WHO, WHEN AND WHERE?

EUSAR, the European Conference on Synthetic Aperture Radar, is the world leading international conference dedicated to SAR techniques, Technology and applications.

EUSAR has accompanied the worldwide evolution of high-resolution imaging radar, both airborne and spaceborne, and has helped to establish an international community of SAR engineers and scientists. As in previous years,

EUSAR 2022 will provide a forum for exchanging information and discussion on a wide variety of SAR topics, representing the latest SAR developments.

We would like to invite you to consider joining us as a Conference Supporter. With our expanded emphasis on the SAR user community, as well as the traditional radar community, we anticipate that the conference will be an exceptional venue to communicate your products, capabilities, and services to potential new customers and to solidify relationships with existing and older customers.

Within the exhibition area, we will have **application-oriented presentations on a product level**, besides the in-depth conference program.

This Exhibition Forum provides additional information about the exhibition topics on the product level especially to visitors of the exhibition. Exhibitors and other parties are therefore invited to respond with their contributions and presentations to potential customer demand.

List of exhibitors

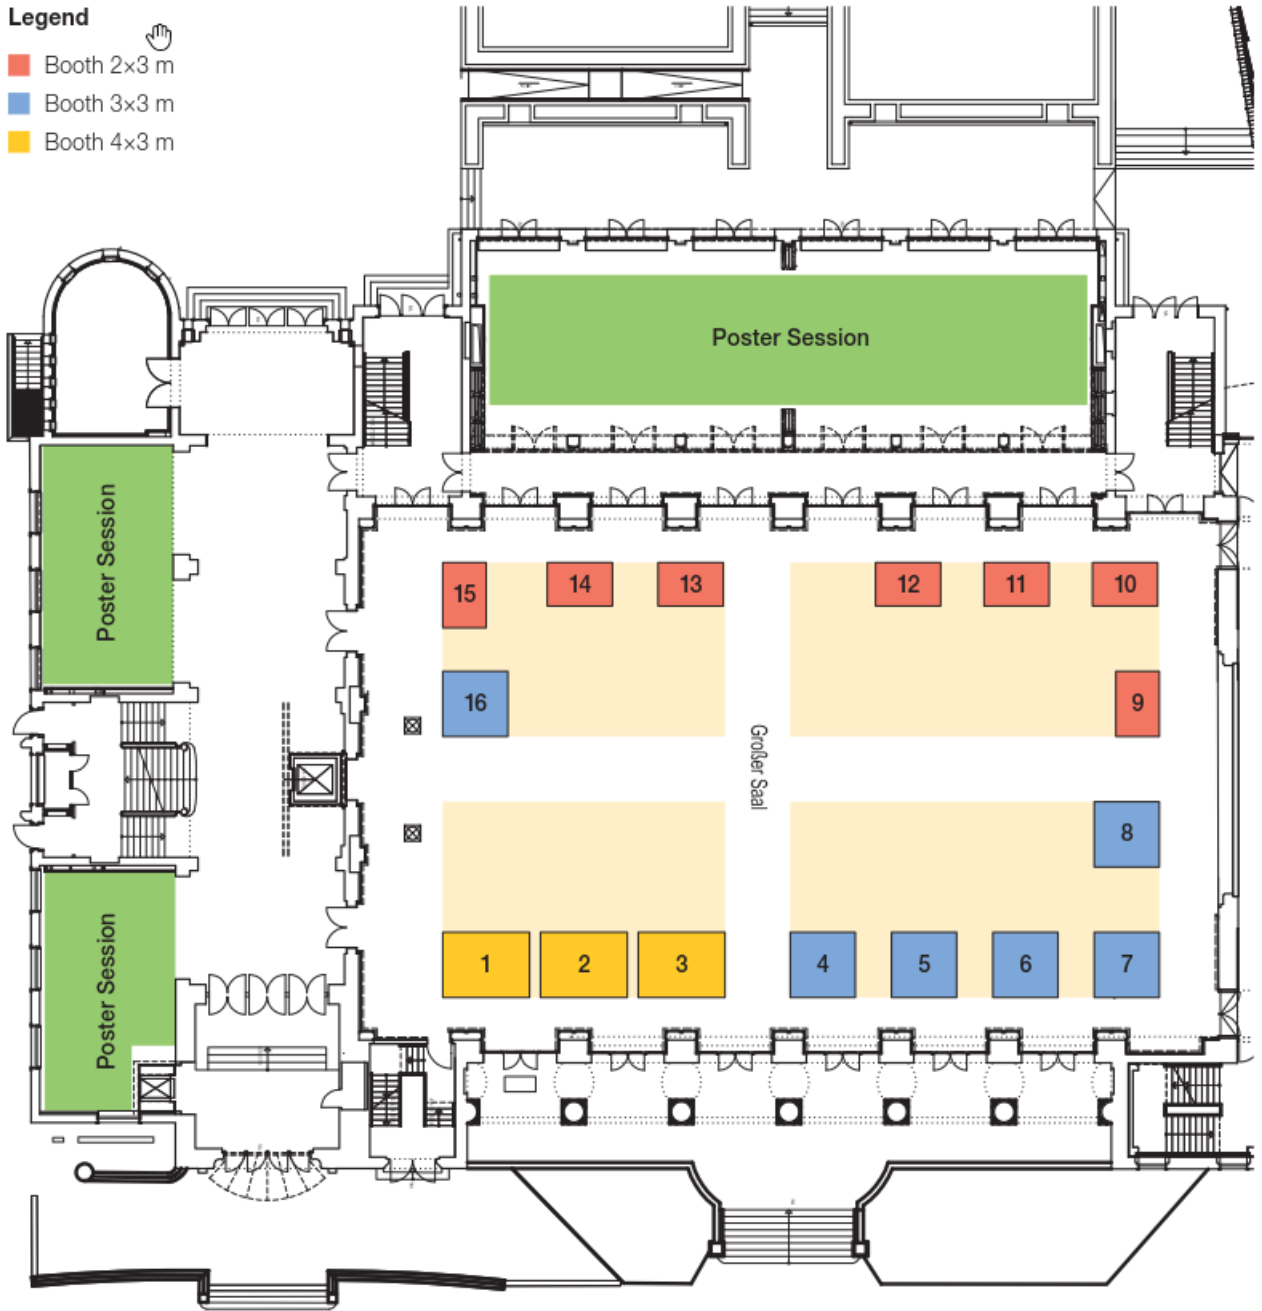

To provide all visitors with a clear orientation, a list of exhibitors including information about all exhibiting companies will be distributed along with other conference documents.

Registered exhibitors are requested to send a short text (max 500 characters including spaces) about the products and services presented as well as a company logo (vector eps format or as high-resolution TIF) as soon as possible to vde-conferences@vde.com.
